Education

JECRC Foundation | BTech in Information Technology | GPA: 8.0

Sept 2022 – May 2026

Technologies and Skills

Programming Languages: C++, Java, JavaScript, SQL

Frontend: React.js, HTML5, CSS3, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Database: MySQL, MongoDB

DevOps: Git, Docker, AWS Services, Jenkins, Kubernetes,

Coursework: DS & ALGO, OOPS, DBMS, Operating Systems, Computer Networks, Software Engineering

Training and Internship

JECRC Central Library – Jaipur, India

01 May 2025 – 28 Oct 2025

- Led development of an international conference management platform using modern web technologies.
- Designed and implemented secure backend APIs and database architecture to support participant registration and event workflows.
- Built scalable web infrastructure serving 3,339+ users from 43 countries, demonstrating global reach and platform reliability.
- Collaborated with stakeholders to gather requirements and deliver production-ready features within project deadlines.

Upflairs Pvt Ltd. – Jaipur, India

1 July – 17 Aug 2024

- Completed an intensive 45-day training program focused on Cloud and DevOps principles
- Gained hands-on experience with Linux, Docker, Jenkins and Kubernetes by deploying and managing sample applications.

Projects

Nextor

[Project Link](#)

- Developed a role-based EdTech platform supporting instructors and students using React.js, Node.js, Express.js, and MongoDB.
- Implemented JWT-based authentication and authorization to secure user access and course management operations.
- Developed 10+ RESTful APIs supporting course management, enrollment, ratings, and content delivery for role-based users.
- Optimized MongoDB queries and backend workflows, reducing response latency and improving application scalability.

Nexio:

[Project Link](#)

- Built a scalable B2B resource-sharing platform enabling NGOs to lend and manage resources efficiently.
- Developed backend services using Node.js, Express.js, MongoDB, and REST APIs.
- Implemented secure authentication and authorization mechanisms using JWT.
- Designed modular backend architecture to support future scalability and integration requirements.

Volunteering and Leadership

Zarurat

- Led a team of 70+ members and coordinated activities for educational and social impact programs serving 250+ underprivileged children.
- Organized and executed flagship events including Joy of Giving Week and Innocence, driving community engagement and volunteer participation.

JECRC Incubation Center

- Produced technical and business-focused articles for institutional publications.
- Conducted research and content analysis to ensure high-quality and engaging publications.

Achievements

- Solved 300+ Data Structures and Algorithms problems on LeetCode.
- Peak LeetCode Contest Rating: 1399.
- Successfully delivered a conference platform serving 3,339+ visitors from 43 countries.
